## 1 Introduction

This paper describes how to use the KeyRedirect application and what the expected behavior is.

## 2 Installation

Double click on the KeyRedirect\_Install.exe to install the KeyRedirect into the Windows\Startup folder on the AllegroMX. Perform a Reset by holding down the Power Button and clicking Reset when the Power Manger Window appears. By placing the KeyRedirect in the Windows\Startup folder application will run every time a Reset is performed.

## 3 Behavior

The KeyRedirect program runs in the background and is invisible to the user. The KeyRedirect captures the F1-F5 keys and sends a coordinating Alt +1 – Alt +5. See below for specifics.

- F1 -> Alt + 1
- F2 -> Alt + 2
- F3 -> Alt + 3
- F4 -> Alt + 4
- F5 -> Alt + 5
