

Release Notes

OS Build 1.0.1-20200502

For Mesa 3 Rugged Tablets Running the Android Operating System

These notes include important information for our Mesa 3 customers regarding the most recent release of the Android operating system.

Documentation and software updates are located on our website here: <https://www.junipersys.com/support>.

Updates and Resolved Issues Contained in the OS for new Devices

- Updated Google Mobile Services to February 2020.
- Updated security patches to March 2020.
- Removed Microsoft PlayReady DRM.
- Updates for Juniper Systems Manufacturing: battery overrides for testing.
- Improved SPI communications with embedded controller.
- Touchscreen improvements: updated touch profiles.
- Updated the device DPI to be more appropriate for applications and users.
- Updated camera application (changing from one specific resolution to another would cause the camera application to exit).
- Screen rotation enabled for home screen.
- Fixed the issue where the Mesa 3 Android would reset unexpectedly.
- Fixed issues with Google compatibility testing.
- Updated the cell modem firmware.
- Made GNSS position accuracy and precision improvements.
