

Release Notes

OS Build 20330

For Mesa 3 Rugged Tablets Running the Windows 10 Pro Operating System

These notes include important information for our Mesa 3 customers regarding the most recent release of the Windows 10 Pro operating system.

Documentation and software updates are located on our website here: <https://www.junipersys.com/support>.

Updates and Resolved Issues Contained in the OS for new Devices

- The Intel Graphics Driver was updated to version 27.20.100.8935. (The graphics driver was removed from the driver package and is now a standalone download.)
- In the Touch Profiles app the Wet and Glove profile versions were updated.
- Patch 20330.1 works around a bug where querying the driver date might swap the day and month, causing the patch to fail.
- Patch 20330.2 fixes an issue where AU cell modules (EM7430) were not configured correctly in manufacturing.
