Release Notes

OS Build 21228

For Mesa 3 Rugged Tablets Running the Windows 10 Pro Operating System

These notes include important information for our Mesa 3 customers regarding the most recent release of the Mesa 3 Windows 10 Pro operating system.

Documentation and software updates are located on our website here: *https://junipersys.com/support.*

Updates in the OS for New Devices

- Graphics driver updated to 30.0.100.9684

- Updated FTDI drivers to 2.12.36.4

- Fixed a driver registry key issue causing the RS232 expansion to stop functioning after a Windows update

- Updated Juniper "ID" driver to support new LCD Panel (update required for BIOS 1.38 or later)

- Removed Geode Connect from the OS

Updates in the OS Patch

- Updated FTDI drivers to 2.12.36.4

- Fixed a driver registry key issue causing the RS232 expansion to stop functioning after a Windows update

- Updated Juniper "ID" driver to support new LCD Panel (update required for BIOS 1.38 or later)

- Added a silent install option that runs the installer without needing user input (older operating systems may still require some user input)
