

Release Notes

Geode Connect™ for Android Product Update 2.3.6

These notes provide important information for Juniper Systems' release of Geode Connect for Android.

Documentation and software updates are located on the Juniper Systems® website: <https://www.junipersys.com/support/geode>.

Fixes

- Incorrect sign issue for latitude and longitude values between -1 and 0° has been resolved.
- Geode Connect mock location now correctly gives the location timestamp.
