

Release Notes

Android™ 14 Build OS U-1.0.0-20250420 For Mesa® 3 Rugged Tablets Running the Android Operating System

These notes include important information for our Mesa 3 customers regarding the most recent release of the Android operating system.

Documentation and software updates are located on the Juniper Systems® website: <https://www.junipersys.com/support>.

Updates

- Added security patches to April 2025.
- Added support for data connectivity on the Verizon cellular network
- Added support for long-range barcode scan engine to Barcode Connector. (A long-range barcode expansion has not been released.)

Fixes

- Fixed an issue with detecting USB-A devices.
- Fixed an issue with some cellular networks (AT&T, etc.) not working.

Upgrading to Android 14 has resolved existing system-wide problems with Android 11.
