

Release Notes

OS Build 20043

For Mesa 3 Rugged Tablets Running the Windows 10 Pro Operating System

These notes include important information for our Mesa 3 customers regarding the most recent release of the Windows 10 Pro operating system and a related patch.

Documentation and software updates are located on our website here: <https://www.junipersys.com/support>. To install the patch, select Mesa 3, then Downloads.

Updates and Resolved Issues Contained in the OS for new Devices and the Cumulative Patch

- Updated the keypad driver, background helper exe, and control panel to add Brightness Up/Down programmable options.
- Updated the expansion driver to guard against improper IOCTL usage.
- Updated touchscreen profiles on some types of displays.
- Updated the cellular drivers.
- Added a smartcard driver.
- Reverted the camera driver back to a signed version (allows for secure boot, but HDR feature won't work).
- Updated the graphics driver (OS only). If you are installing the patch and want to update the graphic driver, it is located here: <https://downloadcenter.intel.com/product/96552/Intel-HD-Graphics-505>.
