Release Notes

OS Build 20236

For Mesa 3 Rugged Tablets Running the Windows 10 Pro Operating System

These notes include important information for our Mesa 3 customers regarding the most recent release of the Windows 10 Pro operating system.

Documentation and software updates are located on our website here: *https://www.junipersys.com/support.*

Updates and Resolved Issues Contained in the OS for new Devices

- Added a registry key to disable BLE advertising, which resolves a Serial Port Profile issue.
- Updated the Intel® Apollo Lake Driver.
- The Graphics Driver was updated to version 27.20.100.7990 (available through a Windows update).
- Updated the Touch Profiles app with an improved touch profile loading speed. The old touch profile loading speed was approximately 25 seconds. The new loading speed is about 1 second. The Touch Profiles app progress bar has been removed.
- Geode software was updated to version 2.2.2.
